

Probability With Spinners

Name: _____

Predict how many times the spinner will land on yellow and how many times it will land on green if it is spun 10 times.

I think it will land on yellow _____ times and on green _____ times.

Use a paper clip and a pencil and spin the spinner 10 times. Record your results in the table below.

Colors	Tally	Total
Yellow		
Green		

Describe your results. (Was your prediction correct or close? Why do you think it turned out this way?)
