

DAILY

APRIL EDITION

1 APRIL FOOL'S DAY

Include **your favourite** number in every sentence you say. Don't tell everyone what you're doing and see if they can figure it out.

2

How many shoes are in your closet or porch? Can you figure this out without counting them one at a time?

3

Create a survey about favourite ice cream flavours. Get a grown-up to help you ask friends and family online.

4

How many fingers and toes are in your house? Did you include pets and toys?

5

How many grains of rice are in a cup? How can you estimate this without counting them?

6

Draw a picture using only triangles, circles, rectangles, and squares. How many of each did you use?

7 WORLD HEALTH DAY

Find a healthy snack recipe. Create a double or half batch and talk about how much of the ingredients you'll need.

8

How many books tall are you? How long will it take you to read all of them?

9

Talk about a situation where 5 is a small number. Talk about a situation where 5 is a big number.

10 GOOD FRIDAY

Draw and decorate 4 Easter eggs - try to make them all as different as possible. Ask your family members which one doesn't belong.

11

Make a 10x10 or 20x20 grid. Colour in boxes to create a "Pixel Art" picture.

12 EASTER SUNDAY

Arrange your chocolate eggs into different shapes. How many different rectangles can you make? Can you make a square?

13

Estimate how many eggs the Easter Bunny hid on your street.

14

Use shoes, books, toys, or any other set of objects to measure the distance from your bed to the fridge.

15

Draw a picture that has the numbers 1-5 hidden in it.

16

Look out your window and find as many shapes as you can. Play "I Spy" and describe the shapes you see.

17

How many steps does it take to visit every room in your house? How can you do it in fewer steps?

18

Write a story or poem that contains the numbers 1-10.

19

Use your recyclables to build a spaceship. How tall would it need to be for your family to fit inside?

20

Find the perimeter of your bedroom using your body as a measuring tool.

21

What do you get when you double the number 1? Keep doubling your answer and see how far you can get.

22 EARTH DAY

How long does it take a tree to grow to 5 meters? How tall will it be after 100 years?

23

Use your body to make the numbers 0-9.

24

If you opened a restaurant, how much could you charge for your favourite meal?

25

How many sheets of paper would it take to cover all of the walls in your room?

26

How many days until your birthday? What about the other members of your family?

27

Find 10 rectangles from where you're sitting. How are they the same/different?

28

Find something in your home that you have 100 of.

29

Get 10 books and arrange them according to size. How else can you arrange them?

30

Come up with your own math challenge for someone in your family.
